

Security Index

Costs for security services

Introduction

SBIX Svenska Branschindex has produced a Security Index on behalf of the Swedish Security Industry Association. The purpose of the index is to measure changes in the costs of security services. The Security Index can be used as a basis and support for adjusting prices in different types of agreements.

Index design

The Security Index is a fixed basis. The base time is set to October 2008. From June 2016 and forward, the values are updated four times per year (January, April, June and October). Previous, the index was updated twice a year (in April and October).

A fixed base index measures price changes compared with the base time.

Security Index October 2026

164.2

(Base month October 2008=100)

The Security Index is also factor cost index, that is, an input index. Input is defined here as the production factors that are included in security services.

Background information on the expense budget of the index series was obtained from members of the Swedish Security Industry Association.

October 2008=100

Cost category	Weight	2025 Oct	2026 Jun	2026 Oct	Oct 2026/ Jun 2026*	Oct 2026/ Oct 2025*
Personnel costs**	78.4	159.7	164.3	164.3	0.0 %	2.8 %
Vehicle costs	6.7	160.6	176.0	176.8	0.5 %	10.1 %
Equipment/communication	2.2	163.7	166.1	169.4	2.0 %	3.5 %
Costs of premises and garage	2.6	155.4	160.4	162.6	1.4 %	4.7 %
Education and training	2.1	156.6	160.0	160.1	0.1 %	2.3 %
Administration/overhead	2.0	171.7	178.0	178.0	0.0 %	3.7 %
Other costs	6.0	142.1	142.5	144.6	1.4 %	1.7 %
TOTAL	100.0	158.9	163.9	164.2	0.2 %	3.3 %

*Calculated using index figures with more than one decimal.

**The increased costs for Avtals-pension SAF-LO, Collective pension insurance according to the supplementary agreement of 12 February 2024 has not been taken into account.
